Re: PALASTNY

Department of State telegram 10066 dated 24 September 1950
Zoltan MAKRA and Rezső PALASTNY are the editors of the "White Book" issued by the POW service of the Hungarian War Veterans. This book concerns the status of Hungarian PWs illegally retained by the Soviet Union and it appeals to the United Nations for action.

Zoltan MAKRA

See comment above -- Department of State telegram 10066 dated 24 September 1950.

MAVA-2433 dated 1 February 1949

Zoltan MAKRA, born in 1906, residing at Bagl Főutca 5, van 17, Budapest, participated in the Hungarian Resistance Movement during the war, and has a wide circle of friends. He is possibly in contact with the British, since he has met several times with Sir Cyril WHISS, a former Lt. Colonel in the British Air Force, who visited Budapest and Kecskemet as a fruit exporter. MAKRA joined the Communist Party in 1945, and has had his house searched twice by the State Defense Department, but no evidence of his clandestine activities was found. He is believed to maintain contact with Monseigneur Joseph KOZL-HORVATH, President of the Mouvement Populaire Chrétien Hongroise. This emigre group issues a weekly publication "Nyugati Hírnök" in Paris, of which Imre NIKES is the editor in chief.

IN 20661 (Heid 661) dated 3 May 1949

Zoltan MAKRA, former Ministerial Secretary in the Hungarian War Ministry, recently escaped to the US Zone of Germany and is now held by GIB. MAKRA allegedly held the above position from October 1945 until February 1949 and he has considerable knowledge of the Hungarian War Department and of Order of Battle. He is cooperative and talks freely. Advice, if interested.

OUT 81957 (Wash 4077 to Heid) dated 24 May 1949
No traces and no interest in MAKRA.

MAVA-6826 dated 2 August 1950

Zoltan MAKRA is the source of articles appearing in "Hungaria" on Hungarian Intelligence personnel, Order of Battle, etc. MAKRA claims to have a clandestine channel into Hungary through which he obtains this data, but it is suspected that he is a ZAKO agent charged with publicizing the ZAKO intelligence networks.
